

## North Star Camp - Maintenance Worker

### Who We Are

North Star Camp is a residential boys summer camp located in Hayward, Wisconsin. Every summer, approximately 300 campers come to the shores of Spider Lake to make new friends, learn new skills, grow as individuals and make memories that last a lifetime. Our incredible staff come from all over the world to create a nurturing and fun environment. We are actively hiring great role models who are energetic, collaborative and hard working to join the team for this summer. Ready to make a difference and have the best summer of your life? We'd love to have you apply!

### The Role In A Nutshell

We're looking for a Maintenance Worker to help camp run smoothly behind the scenes. There are daily tasks that include cleaning washhouses and the health center, taking out trash, filling boats with gas, etc...and also other tasks that will pop up whenever something goes awry. This role starts June 1 and runs through August 31 at our summer camp in Hayward, Wisconsin. Room and board is included with compensation.

### A Typical Day on the maintenance crew (not that there's a typical day at camp...)

- Wake up and grab breakfast with the team. Talk with our head caretaker to figure out that day's maintenance schedule.
- Head over to the Lodge and make sure the bathrooms are cleaned and supplies are replenished. Once that is complete, stop by the Office to empty the garbage cans and see if our office staff needs anything.
- Hop in the golf cart and do a quick trip around camp to empty the garbage cans in each village.
- Drive down to Swim Point to fill the waterski boats with gas before they are used for the day. Take in the beautiful view of Spider Lake before heading back down the path to the Junior Village.
- Stop by the Junior Village washhouse to give it a morning refresh. Scrub the floors and spray them down, replenish soap and toilet paper, clean the sinks and wipe down the mirrors.
- There was a lot of lost and found (towels, clothes, socks) in the washhouse. Grab them and put them in the Lost & Found cabinet.
- It's time for lunch! Grab a quesadilla and some chips & salsa and hang out with the team.
- After lunch, it's time for some fun in the sun...grab the weed wacker and head up to the tennis courts to keep them looking great.
- Uh oh, our head caretaker Todd finds you and lets you know that a window to Cabin J-4 was broken. Head over to the cabin to pull out the screen to get replaced.
- You're done with the weed wacking, so you head over to Todd to see what else is on the "to do" list today.

- Before you know it, it's dinner time and the work day is over! Feel free to join in on camp activities during Evening Program, or just lay low in your cabin -- your choice!

### **This Job Might Be For You If:**

- ***You're a team player.*** Our maintenance team is a small but extremely hardworking crew. There are so many little tasks that go on behind the scenes to keep camp running smoothly. Being a good communicator who is helpful and has a positive attitude goes a long way with this crew.
- ***You can work independently.*** There are times when you will be supervised but other times you will be working around camp on your own or with another member of the maintenance crew. We need staff members who can carry out responsibilities efficiently and then move onto the next task.
- ***You like rolling up your sleeves...and maybe getting a little dirty.*** You'll be spending your summer outdoors working around a summer camp. There is a lot of manual labor involved in this job, so you should be willing and able to lift heavy things and work hard to see that the task at hand gets done safely and efficiently.
- ***You're flexible and always willing to lend a helping hand.*** There's always something that pops up unexpectedly like a broken screen door or a boat that needs more gas. When the issue arises and is brought to the attention of our maintenance crew, you should always be willing to pitch in and help resolve the situation.
- ***You're ready to don the hard hat and safety goggles.*** A good portion of this job will require the use of tools. It's okay if you're not an expert at them – our head caretaker will help teach you. Whatever you're doing though, whether it's a repair to a door screen or landscaping the tennis courts with a weed wacker, you need to make sure that you're doing it safely.

### **Perks Of The Job**

- A competitive salary
- Room and board (3 meals a day and snacks at night) for the entire summer
- Travel expense reimbursement
- A beautiful camp surrounded by a stunning waterfront
- New friendships and memories that will last a lifetime
- All the s'mores you can imagine

### **Essential Functions Needed For This Role**

- Ability to lift 50 pounds
- Ability to be on your feet for extended periods of time
