

Hello North Star Camp Families,

It's time to start planning your camper's travel plans and submitting their required forms for this upcoming summer.

Planning your camper's travel:

New for 2024, we have created two pages on the North Star website that will detail travel to and from camp options.

[This general travel page details travel options for all camp families and gives a basic overview of our travel modes.](#) It also lists locations and timing for those travel modes, though those times are subject to change.

For families flying their campers into Minneapolis, we have a separate webpage that is a bit more detailed. Even for veteran camp families, [we ask that you look over this page to refresh yourself with the process, including the North Star flights from each city.](#) This page will be updated, particularly as flight times tend to change.

North Star Camp Forms Are Now Available Online in CampInTouch:

All registered campers must have updated forms submitted ahead of every summer. Those forms can all be found on CampInTouch, the same online system that we use for camper registration.

[Login to CampInTouch](#) with this link or you can always find the "login" page at the top of our [North Star Camp website](#). There is also a mobile app, Campanion- [Download it here](#).

We will add additional forms in March and notify you by email each time a form has been uploaded for you to submit. **All required camp forms must be submitted before May 1.**

Required forms:

- All required forms are meant to be completed by you, the camper's parent or guardian.
- None of the required health forms need a visit to your camper's doctor, so no need to wait for your child's next wellness appointment.

Optional forms:

- There are optional forms for campers who have ongoing health conditions (such as asthma, severe allergies or other chronic conditions), campers who are currently working with a mental health professional, and campers who have special education goals and accommodations at school. If any of these describe your camper, please submit the appropriate optional forms as well.
- These optional forms should be shared with your medical, mental health or special education provider to be filled in and completed before they are returned to camp.

If this is your first time submitting our online forms, or you just need a refresher, [please watch this online webinar hosted by Andy, Dan and Robyn.](#)

If you have any questions about submitting your camper's required forms, please reach out to Assistant Director, [Robyn Boehm](#), or Office Manager, [Beth Sosler](#). If you have any questions about planning your camper's travel plans, please reach out to Logistics Director, [Dan Lichtenstein](#).
